### Weather and What to Wear.

During spring (March, April, May), the days can be very changeable, from warm sun to cold wind and rain, so take a sweater and a jacket. Most summer days (June, July, August) are warm and sunny, so T-shirts are ideal, but bring light sweaters or a jacket for the cooler times of the day. Autumn (September, October, and November) is one of the best seasons. The early mornings and evenings begin to get a little colder, but September is often like a summer month. But bring a raincoat. Winter (December, January, and February) has Britain's shortest days, it is seldom freezing, many days are bright and lovely, and sometimes it is snowy. Bring some warm clothes. Don't forget to bring comfortable shoes or boots.

- The weather can change fast during spring.
- Not all days are hot in summer.
- Weather at the beginning of autumn is nice.
- Winter in Britain is very frosty.

**Задание 6.** Напишите сочинение «Как я провел летние каникулы». 10-12 предложений.
